Fax: +39 0262227309

I.2) **Main activity**

Electricity

I.3) **Contract award on behalf of other contracting entities**

The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1) **Description**

II.1.1) **Title attributed to the contract by the contracting entity:**

Dismantling works, transportation and sale of 79 Wind Turbine Generators in Italy.

II.1.2) **Type of contract and location of works, place of delivery or of performance**

Works

NUTS code ITF14

II.1.3) **Information about a public contract, a framework agreement or a dynamic purchasing system (DPS)**

II.1.4) **Information on framework agreement**

II.1.5) **Short description of the contract or purchase(s):**

The scope of the works is the electrical and mechanical dismantling, handling and transport to a storage laydown area of:

n. 59 wind turbine generators Enercon E40 installed in the wind farms of Castiglione Messer Marino (n.44 WTG) and Schiavi d'Abruzzo (n.15 WTG) in Abruzzo region, and

n. 20 wind turbine generators Enercon E40 installed in the wind Farm of Vaglio di Basilicata (PZ).

For each Wind Turbine Generator the following operations are required:

- o Disposal of unrecoverable waste material (to be arranged, divided by type, into special roll-off containers);
- o Preservative dismantling of the WTG using suitable lifting means, without damaging the interface elements (flanges, bolts, connectors, etc.);
- o Disconnection of foundation anchor bolts, cutting them if necessary, without damaging the tower base flange;
- o Disassembly of the WTG (both at height and on the ground) and related electrical cabin, and preparation to transportation;
- o Loading on suitable transport trucks;
- o Transport of WTG components to a storage depot, located in the industrial area of Foggia (IT);
- o Unloading of the components at the depot.

All the operations shall be carried out without damaging the components to be recovered.

The Wind Turbine Generators dismantled shall be sold (totally or partially) by the Contracting Entity;

II.1.6) **Common procurement vocabulary (CPV)**

45111300

II.1.7) **Information about Government Procurement Agreement (GPA)**

II.1.8) **Information about lots**

This contract is divided into lots: yes

Tenders may be submitted for one or more lots

II.1.9) **Information about variants**

II.2) **Quantity or scope of the contract**

II.2.1) **Total quantity or scope:**

1.

II.2.2) **Information about options**

II.2.3) **Information about renewals**

This contract is subject to renewal: no

II.3) **Duration of the contract or time limit for completion**

Duration in months: 6 (from the award of the contract)

Information about lots

Lot No: 1

Lot title: Dismantling work and transportation of 59 WTGs (Area Abruzzo)

1) **Short description:**

Dismantling and Transport of Wind Turbine Generators.

The scope of the works is the electrical and mechanical dismantling, handling and transport to a storage laydown area of n. 59 wind turbine generators (WTG) Enercon E40 installed in Abruzzo, at the wind farms of Castiglione Messer Marino (n.44 WTG) and Schiavi d'Abruzzo (n.15 WTG).

For each Wind Turbine Generator the following operations are required:

- o Disposal of unrecoverable waste material (to be arranged, divided by type, into special roll-off containers);
- o Preservative dismantling of the WTG using suitable lifting means, without damaging the interface elements (flanges, bolts, connectors, etc.);
- o Disconnection of foundation anchor bolts, cutting them if necessary, without damaging the tower base flange;
- o Disassembly of the WTG (both at height and on the ground) and related electrical cabin, and preparation to transportation;
- o Loading on suitable transport trucks;
- o Transport of WTG components to a storage depot, located in the industrial area of Foggia (IT);
- o Unloading of the components at the depot.

All the operations shall be carried out without damaging the components to be recovered.

In the event that an economic operator won also the purchase of the WTGs, transportation to Foggia, for the sold WTGs, will not be necessary.

2) **Common procurement vocabulary (CPV)**

45111300

3) **Quantity or scope:**

1.

4) **Indication about different date for duration of contract or starting/completion**

Duration in months: 5 (from the award of the contract)

Lot No: 2

Lot title: Dismantling work and transportation of 20 WTGs (Vaglio di Basilicata)

1) **Short description:**

Dismantling and Transport of Wind Turbine Generators.

The scope of the works is the electrical and mechanical dismantling, handling and transport to a storage laydown area of n. 20 wind turbine generators (WTG) Enercon E40 installed in the wind Farm of Vaglio di Basilicata (PZ).

For each Wind Turbine Generator the following operations are required:

- o Disposal of unrecoverable waste material (to be arranged, divided by type, into special roll-off containers);
- o Preservative dismantling of the WTG using suitable lifting means, without damaging the interface elements (flanges, bolts, connectors, etc.);

Section III: Legal, economic, financial and technical information

- III.1) **Conditions relating to the contract**
- III.1.1) **Deposits and guarantees required:**
These will be set out in the Invitation to Tender that will be issued to candidates who are selected to the Tender phase. It is anticipated that a Performance Bond equal to 10 % of the Contract Price will be requested to the Candidate/ s that, following the Tender phase, will be selected as the awarded contractor.
- III.1.2) **Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them:**
These will be set out in the Invitation to Tender that will be issued to candidates who are selected to the Tender phase.
- III.1.3) **Legal form to be taken by the group of economic operators to whom the contract is to be awarded:**
Candidate may be either a single economic operator or a Joint Venture/Corsortium of economic operators, in accordance with Art. 198 of Italian Decree 50/2016.
In case of Joint Venture/Corsortium the following will apply:
— the conditions of Sections III.2.1 and III.2.2 shall apply to each economic operator forming the Joint Venture/ Consortium,

— the conditions of Section III.2.3 shall apply to each economic operator forming the Joint Venture/Consortium, in respect of its specific scope of supply.

The legal formation of the Joint Venture/Consortium will be required prior to any contract award but is not required for this call for participation. Candidates shall however be required to demonstrate agreements to legally form any proposed grouping of economic operators and shall nominate an economic operator as Leader.

III.1.4) **Other particular conditions:**

III.2) **Conditions for participation**

III.2.1) **Personal situation of economic operators, including requirements relating to enrolment on professional or trade registers**

Information and formalities necessary for evaluating if the requirements are met: Candidates are invited to send the following documents:

— statement that the candidate is not subject to any of the causes of exclusion listed at art. 80 of Legislation Decree 50/2016,

— statement of the official record of the company, in its own country, or in the country where it is located (CCIAA certificates for Italian candidates),

— statement of the company that the works will be achieved by regular workers, according to Italian regulation, or equivalent effect laws in their own country (DURC for Italian Companies).

— Antimafia Declaration.

All the above documents must be duly certified by the competent authority of the economic operator's country of registration. In case that the documents are not prepared in English, they shall be accompanied by official translation in English.

III.2.2) **Economic and financial ability**

Information and formalities necessary for evaluating if the requirements are met: Candidates shall submit, only in electronic version (on CD), the audited annual accounts, or the audited extracts of the annual accounts (if available) and in particular the amount of the annual turnover related to the past 3 years for each economic operator and shall demonstrate financial management capabilities required for the execution of the work.

III.2.3) **Technical capacity**

Information and formalities necessary for evaluating if the requirements are met: A list of any similar work during the past 5 years, including client, value, date and location of each contract.

A copy of the established quality management system, compliant with EN-ISO9001, or shall use a quality management system in accordance with this EU norm, or with equivalent norm. Copies of on-going certificates shall be joined.

III.2.4) **Information about reserved contracts**

III.3) **Conditions specific to services contracts**

III.3.1) **Information about a particular profession**

III.3.2) **Staff responsible for the execution of the service**

Section IV: Procedure

IV.1) **Type of procedure**

IV.1.1) **Type of procedure**

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures):

no

IV.2) **Award criteria**

IV.2.1) **Award criteria**

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2) **Information about electronic auction**

IV.3) **Administrative information**

IV.3.1) **File reference number attributed by the contracting entity:**

IV.3.2) **Previous publication(s) concerning the same contract**

IV.3.3) **Conditions for obtaining specifications and additional documents**

IV.3.4) **Time limit for receipt of tenders or requests to participate**

26.5.2017

IV.3.5) **Language(s) in which tenders or requests to participate may be drawn up**

English. Italian.

IV.3.6) **Minimum time frame during which the tenderer must maintain the tender**

IV.3.7) **Conditions for opening of tenders**

Section VI: Complementary information

VI.1) **Information about recurrence**

VI.2) **Information about European Union funds**

VI.3) **Additional information:**

Applications, to be received by the date indicated at point IV.3.4, shall be completed with all documents, declarations and statements listed at points III.1.3, III.2.1, III.2.2 and III.2.3.

Applications not received in compliance with the above mentioned requirements shall not be evaluated.

Applications shall be submitted in 1 hard copy.

The Candidates, for the dispatching of the information requested at points III 2.1, III.2.2., III.2.3. can use the standard application model ESPD (European Single Procurement Document or DGUE Documento di Gara Unico Europeo), as provided by European Commission with Regulation EU 2016/7 dated 5.1.2016.

The Contracting Entity reserves the right that itself, or any of its Affiliate, may award the contract for one or more lots of the supply under the present call for competition.

The Contracting Entity reserves the right to limit to a maximum of 8 candidates, that satisfy the minimum requirements set forth in section III.2, to be invited to the next tender process. The selection of these candidates will be based on the following criteria of priority:

— turnover,

— references relevant to similar dismantling and transportation works,

—The Candidates that will be invited to tender will be requested to pay the respective amount in favour of the National Anticorruption Authority, as requested by the Italian Law, according to instruction that will be given in the invitation to tender.

For Lots 3 and 4 the Contracting Entity reserves the right not to proceed to award the Contract for the sale of the Wind Turbine Generators, in particular in case that the offers received are considered not interesting or not convenient.

VI.4) **Procedures for appeal**

VI.4.1) **Body responsible for appeal procedures**

VI.4.2) **Lodging of appeals**

VI.4.3) **Service from which information about the lodging of appeals may be obtained**

VI.5) **Date of dispatch of this notice:**

8.5.2017
