It also provided its opinion whenever the Board of Directors requested it, also in accordance with provisions that, for certain decisions, require the prior input of the Board of Statutory Auditors.

9. In general, in order to obtain the information needed to carry out its oversight activities, the Board of Statutory Auditors met seventeen times in 2020, respecting the frequency required by law. The activities performed on those occasions were documented in the minutes of the meetings.

In addition, in 2020, the Board of Statutory Auditors participated:

- in all meetings of the Company's Board of Directors;
- in the Ordinary Shareholders' Meeting of April 28, 2020;
- at least through its Chairperson or one of its members, in all meetings of the Control and Risk Committee, the Compensation Committee, the Related-Party Transactions Committee and the Oversight Board of the Organisation and Management Model pursuant to Legislative Decree 231/2001.

Lastly, the Board of Statutory Auditors exchanged information with the control bodies of the subsidiaries, as required by art. 151 of Legislative Decree No. 58/1998, there being no indication of any significant issues or ascertained circumstances that would require mention in this report.

10. The Board of Statutory Auditors monitored compliance with the law and the Articles of Incorporation and with the principles of sound management, ensuring that all transactions approved and executed by the Directors complied with the above-mentioned rules and principles, were financially sound, were not manifestly imprudent or hazardous, did not give rise to potential conflicts of interest with the Company, were not in conflict with resolutions approved by the Shareholders' Meeting and did not compromise the integrity of the Company's assets. The Board of Statutory Auditors believes that the tools and governance systems adopted by the Company provide an effective safeguard in terms of compliance with the principles of sound management.

11. The Board of Statutory Auditors monitored the adequacy of the organisational structure of the Company and the Group by gaining an understanding of the Company's administrative structure and exchanging data and information with the managers of the various company functions, the manager of the Internal Auditing Department and the Independent Auditors.

The Company's Board of Directors retains broad decision-making powers.

The Board of Directors delegated powers exclusively to the Chief Executive Officer enabling him to perform all activities that are consistent with the Company's purpose, except for the limitations imposed by laws and the Company's By-laws and excluding the transactions over which the Board of Directors decided to reserve sole jurisdiction.

Pursuant to the By-laws, the Chairman of the Board of Directors and the Chief Executive Officer are the Company's legal representative vis-à-vis third parties and in court proceedings.

The Chairman of the Board of Directors does not have operational authority, serving instead in an institutional guidance and control function.

The organisational structure of the Company and the Group is defined by the Chief Executive Officer and implemented by means of a system of internal communications, by which the managers of the various departments and business units were appointed and to whom power were delegated consistent with the assigned responsibilities, the attribution guidelines of which are specified within the framework of the 231 Model. The responsibilities of the Company's top management are clearly defined, with a detailed specification of the attributions of the managers of the main areas of business and corporate functions, all represented in the Executive Committee (COMEX).

The more operational aspects of the organisational structure are defined by additional organisational communications issued by the managers of the various departments and business units, with the prior approval of the Chief Executive Officer, which are posted on the company Intranet.

In 2020, there were no significant changes to the Group's organisational and managerial structure, while at the start of 2021, the Company restructured the operations of the Gas Midstream, Energy Management & Gas Infrastructures Division following the sale of Edison E&P. As a result of the Division's reconfiguration, managers of the Gas & Power Portfolio Management & Optimization and Gas Assets Divisions were appointed, who joined the Comex.

The year 2020 also saw a continuation of the activities of the Transformation Team, established in 2016 and composed of managers and professionals, in support of the transformation of the organisational model and linked to the development of the company business and ongoing innovations.

Based on the audits performed, no problematic issues having been uncovered, the Company's organisational structure appears adequate in light of the Company's purpose, characteristics and size.

12. In monitoring the adequacy and effectiveness of the system of internal controls, also with regard to the requirements of art. 19 of Legislative Decree No. 39/2010 and art. 150, paragraph 4, of Legislative Decree No. 58/1998 currently in effect, the Board of Statutory Auditors met on a

regular basis with managers of the Internal Auditing Department and other company functions and, through the participation of its Chairperson as a minimum, attended the relevant meetings of the Control and Risk Committee and the Oversight Board of the Model pursuant to Legislative Decree No. 231/2001.

The Board found that Edison's system of internal controls is based on a structured and organic set of rules, procedures and organisational structures aimed at preventing or minimising the impact of unexpected results and allow for the achievement of the Company's strategic and operating objectives (i.e., consistency of the activities with the desired objectives, effectiveness and efficiency in conducting its operations, and protection of the corporate assets), compliance with applicable laws and regulations, and accurate and transparent internal and market communications (reporting).

The guidelines of this system are defined by the Board of Directors with the assistance of the Control and Risk Committee. The Board of Directors also evaluates its adequacy and proper functioning, at least once per year, with the support of the Internal Auditing Department, on the basis of the preliminary activity performed by the Control and Risk Committee.

The Board of Statutory Auditors periodically interacted with the Internal Auditing Department for the purpose of assessing the audit plan and its findings, both in the planning phase and in the review of completed audits and the corresponding follow-up activities.

Consistent with past practice, the Board of Statutory Auditors verified, for the areas under its jurisdiction, that internal control monitoring tools were also promptly activated.

The Company, directly and at the Group level, uses additional tools to monitor progress toward the achievement of operational and compliance objectives, including a structured and periodic planning, management control and reporting system, a financial risk governance system (commodity and foreign exchange risks primarily), a system to manage company risks in accordance with Enterprise Risk Management (ERM) principles, and the accounting control model required by Law No. 262/2005 concerning financial disclosures. The characteristics of the structure and functioning of these systems and models are described in the Report on Corporate Governance and the Company's Ownership Structure.

Periodically, the Board of Statutory Auditors, working with managers of the relevant department, reviewed changes in the risk map based on ERM methods.

The Board of Statutory Auditors also monitored the adequacy of the organizational structure and the correct implementation of the safeguards adopted by the Company to ensure compliance with provisions of the EMIR Regulation.

Edison adopted the organisational model required pursuant to Legislative Decree No. 231/2001 (“231 Model”) of which the Code of Ethics is an integral part. The Model is designed to prevent the perpetration of the unlawful acts referred to in the above-mentioned Decree and, consequently, shield the Company from administrative liability.

In 2020, an update was made to Edison’s 231 Model, approved by the Board of Directors at the meeting on December 7, 2020, with the purpose, in particular, to adjust the Model following the inclusion, under predicate offences, of tax offences and some additional offences against the Public Administration, through the addition of some behavioural rules to the Code of Ethics and significant decision-making protocols, as well as to adopt a new specific protocol, dedicated to the preparation, filing and signing of tax returns.

The Company, with the support of the Internal Auditing Department, continued the training programmes on the 231 Model, the Code of Ethics and the Anti-corruption Guidelines, also through the preparation of multimedia on-line courses aimed at all employees, to help them achieve a sufficiently detailed knowledge of those documents.

It is also acknowledged that the Oversight Board, pursuant to Legislative Decree 231/2001, is currently composed of an external professional (Pietro Manzonetto), who serves as Chairman, and two independent Directors (Paolo Di Benedetto and Angela Gamba).

In 2020, the Oversight Board met three times with its appointed members and on a further three occasions together with the members of the Oversight Boards of the subsidiaries, monitoring the functioning and observance of the 231 Model - which it judged to be “suitable” in accordance with Legislative Decree 231/2001 - as well as monitoring the evolution of the relevant regulations, the implementation of personnel training initiatives and the observance of the Protocols by their addressees, also through audits conducted with the support of the Internal Auditing Department.

Special attention was paid by the Oversight Board to the examination of the measures taken by the Group Crisis Committee set up for the purposes of containing the COVID-19 epidemic.

Furthermore, some time ago the Company adopted an Antitrust Code that complements the Code of Ethics, with the aim of supporting and facilitating compliance with the rules protecting competition.

In the area of internal dealing, in addition to the obligations that already exist pursuant to the regulations concerning market abuse, the Company adopted rules governing the obligation to refrain from executing transactions that involve financial instruments issued by the Company that are listed on regulated markets, as required by EU Regulation No. 596/2014 on market abuse, making the prohibition requirement applicable only to mandatory financial documents and specifying the timing and duration of this prohibition, in accordance with the provisions of the above-mentioned Regulation.

For the year 2020, the Board of Directors, based on the available information and evidence, gathered in part thanks to the preparatory work of the Control and Risk Committee, carried out an overall assessment of the adequacy of the internal control and risk management system, concluding that it was generally adequate for the purpose of providing a reasonable certainty that the main risks identified are properly managed.

It is also acknowledged that the Company also has an updated Personal Data Protection Management Model, in compliance with the provisions of EU Regulation 679/2016 (also known as the General Data Protection Regulation) in force. This Model defines the guidelines on the processing of personal data for the management of intragroup corporate and organisational relations and for the necessary coordination of operating and compliance activities and is monitored by the Data Protection Officer (DPO).

As a result of the analyses conducted by the Board of Statutory Auditors, and the information acquired, also in consideration of the dynamic and evolutionary nature of the Company's internal control and risk management system, also considering the actions planned and implemented over time, no elements emerged to suggest that said system is not adequate, effective and effectively implemented.

13. In addition, the Board of Statutory Auditors monitored the adequacy and reliability of the Company's administrative and accounting system in presenting accurately the results from operations by obtaining information from the managers of the relevant departments, reviewing company documents and analysing the information produced by the Independent Auditors. The two Officers appointed to prepare the Company's accounting documents were awarded jointly the attributions that the law requires and were provided with sufficient authority and resources to discharge their duties. In addition, the Chief Executive Officer, through the Documents Officers, is responsible for implementing the "Accounting Control Model Pursuant to Law No. 262/2005", the purpose of which is to establish the guidelines that must be applied within the Edison Group to

satisfy the obligations set forth in art. 154-bis of Legislative Decree No. 58/1998 with regard to the preparation of corporate accounting documents and comply with the resulting certification requirements. The preparation of accounting disclosures and of statutory and consolidated financial statements is governed by the Group Accounting Manual and by the other administrative and accounting procedures that are part of the Model pursuant to Law No. 262/2005, including the fast closing procedure adopted by the Company.

The Model adopted pursuant to Law No. 262/2005 includes official procedures concerning the impairment test, performed in accordance with IAS 36. The analysis of the recoverable values of goodwill and other assets was carried out with the support of a highly qualified independent expert and approved by the Board of Directors at its meeting on February 17, 2021. A detailed description of the methods and assumptions applied is provided in the relevant note to the consolidated financial statements.

The impairment test procedure and its methodological set-up were monitored by the Board of Statutory Auditors through meetings with company managers and the Independent Auditors and the participation, at least through its Chairperson or one of its members in the meeting held by the Control and Risk Committee which reviewed them.

The Company has formalised a Tax Policy which sets out the basic principles and guidelines of its tax strategy with the aim of ensuring the correct and timely compliance with tax obligations and more generally compliance with tax regulations, and to ensure the correct and efficient management of the Group's taxation system. In addition, at Group level, Edison has adopted a Tax Control Framework (TCF) which is part of the broader internal control and risk management system to detect, manage and monitor tax risks in relation to the activities falling within the processes managed by the various business areas.

The Model, pursuant to law 262/2005, supplemented by the Tax Control Framework (TCF), in 2020, was extended to the Energy & Environmental Services Market Division for the processes identified as more significant, including the sales cycle/ purchasing cycle, the provision for risks and charges and Mergers & Acquisitions.

The Company has a Procedure (Guidelines for the sustainability reporting process) for the preparation of the Edison Group's sustainability reports, which therefore facilitates the identification and collection of the qualitative and quantitative information required to draw up the non-financial disclosure.

The Board of Statutory Auditors examined this Procedure and has no observations to be reported in this regard.

The non-financial disclosure is prepared by the Company based on the data collected and coordinated by the Sustainability, Institutions & Regulation Division, which coordinates and supplements the contributions of the competent departments and divisions on the respective sustainability themes.

The Board of Statutory Auditors has acknowledged the attestations issued by Edison's Chief Executive Officer and Corporate Accounting Documents Officers regarding the adequacy of the administrative and accounting system, in light of the Company's characteristics, and the effective implementation of the administrative and accounting procedures required for the preparation of the separate financial statements of Edison and the consolidated financial statements of the Edison Group. In addition, the Board of Statutory Auditors monitored the financial information reporting process by obtaining information from company managers.

As a result of the analyses performed and the information acquired, it found that, overall, the Company's administrative-accounting system is adequate and reliable in accurately presenting operating results.

14. The Board of Statutory Auditors monitored the adequacy of the instructions provided by the Company to its subsidiaries pursuant to art. 114, paragraph 2, of Legislative Decree No. 58/1998, determining, based on information provided by the Company, that these instructions were suitable for providing the information needed to comply with statutory disclosure requirements, and has no objections.

15. The Board of Statutory Auditors, with the support of the Corporate Affairs Department, monitored the process adopted to ensure the concrete implementation of the corporate governance rules set forth in the edition currently in effect of the Corporate Governance Code published by Borsa Italiana (the "Code"), also with respect to their adjustment to reflect the provisions added to the Corporate Governance Code following the revision of the Code completed in January 2020.

The Report on Corporate Governance and the Company's Ownership Structure lists the Code recommendations that the Board of Directors chose not to adopt, explaining the reasons for those choices, and describes any alternative solutions that may have been adopted.

16. The Board of Directors is currently composed of nine directors, three of whom independent, whose office will end with the Shareholders' Meeting called to approve the financial statements as at December 31, 2021.

All directors in office were appointed by the Shareholders' Meeting of April 2, 2019, with the exception of the Chief Executive Officer Nicola Monti – coopted, pursuant to art. 2386, paragraph 1 of the Italian Civil Code, as a company director at the meeting of the Board of Directors on July 19, 2019, replacing the outgoing Sylvie Jéhanno and confirmed in the office of director by the Shareholders' Meeting of April 28, 2020 - as well as of the directors Angela Gamba and Florence Schreiber, appointed by the Shareholders' Meeting of April 28, 2020, replacing the directors Nicole Verdier-Naves who resigned from the office of company director on February 6, 2020, effective from the Shareholders' Meeting called to approve the financial statements as at December 31, 2019, and Nathalie Tocci, who stepped down from the office of director on April 20, 2020, with immediate effect.

It is acknowledged that the composition of the Board of Directors respects the rules governing gender balance, given that, in Edison's case, the provisions governing gender diversity introduced by art. 1, paragraphs 302 and 302, law No. 160 of December 27, 2019, will take effect from the next renewal of the body, as established in art. 1, paragraph 304 of Law 160/2019.

In 2020, the Board of Directors carried out a self-assessment of the size, composition and activities of the Board of Directors and its Committees. The results of this process were presented during the Board of Directors' meeting held on February 17, 2021 and are listed in the Report on Corporate Governance and the Company's Ownership Structure.

With regard to the procedure followed by the Board of Directors to ascertain the independence of its members, the Board of Statutory Auditors carried out a review of the issues over which it has jurisdiction, concluding that the criteria and procedures used to verify the independence requirements, pursuant to the applicable laws and the Corporate Governance Code, were correctly applied and the requirements concerning the overall composition of the Board of Directors were complied with.

The Board of Statutory Auditors ascertained that its members met the same independence and integrity requirements as the Directors and notified the Company's Board of Directors of this fact.

It also adopted the Corporate Governance Code's recommendation requiring that its members disclose any direct or third-party interest they may have in specific transactions submitted to the

Board of Directors. No situation with respect to which the members of the Board of Statutory Auditors would have been required to make disclosures of this type occurred in 2020.

The Company's Board of Directors met ten times in 2020.

The following committees have been established within the framework of the Board of Directors:

- The Control and Risk Committee, which is responsible for providing consulting support and making recommendations, reports to the Board of Directors at least once every six months about the work it performed and the adequacy of the internal control and risk management system, as well as on the sustainability and Corporate Social Responsibility policies enacted in Edison, also with regard to the obligations to draft the non-financial disclosure pursuant to Legislative Decree No. 254/2016. This committee, which is comprised of three non-executive Directors, two independent, met five times in 2020. The recommendation of the Corporate Governance Code that the Control and Risk Committee be comprised exclusively of independent Directors was not complied with for the reasons presented in the Report on Corporate Governance and the Company's Ownership Structure in the paragraph "Attribution and Composition of the Control and Risk Committee";
- The Compensation Committee, which is comprised of three non-executive Directors, two independent, met twice in 2020.
- The Related-Party Transactions Committee, comprised of three independent Directors, held eight meetings in 2020, during which it reviewed four Less Material transactions in accordance with the Related-party Procedure.

The composition and adequacy of the administrative and control bodies of the subsidiaries were also verified.

Additional information about the Company's corporate governance is provided in the Report on Corporate Governance and the Company's Ownership Structure, with regard to which the Board of Statutory Auditors has no objections requiring disclosure.

17. The Board of Statutory Auditors reviewed the Compensation Report approved by the Board of Directors on February 17, 2021 upon a recommendation by the Compensation Committee and verified its compliance with the applicable laws and regulations, and the clarity and completeness of the disclosures provided regarding the compensation policy adopted by the Company.

18. The Board of Statutory Auditors also reviewed the motions that the Board of Directors, meeting on February 17, 2021, resolved to submit to the Shareholders' Meeting and declares that it has no specific remarks in this regard.

19. Without prejudice to the specific tasks of the Independent Auditors regarding control of the accounts and verification of the reliability of the separate financial statements and the consolidated financial statements, the Board of Statutory Auditors directly verified compliance with the provisions of the statutes governing the preparation of the draft separate financial statements and consolidated financial statements of the Group at December 31, 2020, the respective Notes and the Directors' Report on Operations. It accomplished this task through direct observations and with the support of managers of company departments as well as representatives of the Independent Auditors and has no observations to formulate to the Shareholders' Meeting on the matter.

The separate and consolidated financial statements are accompanied by the required conformity declarations signed by the Chief Executive Officer and the Corporate Accounting Documents Officers.

The Board of Statutory Auditors also reviewed the 2021 budget and 2022-2023 Medium Term Plan, both approved by the Company's Board of Directors on December 7, 2020.

In addition, the Board of Statutory Auditors verified that the Company fulfilled the obligations laid out in Legislative Decree No. 254/2016 and that, in particular, it drafted the consolidated non-financial disclosure in compliance with the provisions of articles 3 and 4 of the same Decree. On this point, the Board of Statutory Auditors acknowledges that the Company relied on exemption from the obligation to draft the separate non-financial disclosure laid out in art. 6, paragraph 1 of Legislative Decree No. 254/2016, as it prepared the consolidated non-financial disclosure pursuant to art. 4. This statement was accompanied by the certification of the Independent Auditors on the compliance of the information provided with what is set forth in the above-mentioned Legislative Decree and the principles and methodologies used by the Company for its preparation, also pursuant to the Consob Regulation adopted with resolution No. 20267 of January 18, 2018. In the aforementioned disclosure, the company took account of the impact of the COVID-19 pandemic on the company management and organisational model, risk management and non-financial matters. Furthermore, special attention was focussed on social and personnel-related matters, including aspects such as health, workplace safety, remote working and the relevant policies implemented in favour of its employees and in the relationship with suppliers.

\* \* \*

Based on the foregoing considerations, which provide an overview of its activities in the year, the Board of Statutory Auditors did not uncover any specific negative issues, omissions, improper acts or irregularities and has no remarks, and finds no grounds for objecting to the approval of the motions submitted by the Board of Directors to the Shareholders' Meeting.
