EDISON: MOODY'S CONFIRMS Baa3 RATING WITH A STABLE OUTLOOK

Milan, November 27, 2026 – Moody's has affirmed Edison's long-term *rating* at Baa3, with a stable *outlook*. Moody's assessment reflects the strength of Edison's financial profile, its position as one of the largest integrated electric and gas utilities in Italy, and its strategy to invest in low-risk activities such as contracted power generation.

This rating also takes into account the fact that Edison is part of the Électricité de France Group (EDF, Baa1, stable outlook).
